Item | Outcome | Score | Max.
--- | --- | --- | ---
Program Operation
- Button 1 generates ‘U’ code | Yes/No | 2
- Button 2 generates ‘S’ code | Yes/No | 2
- Button 3 generates ‘C’ code | Yes/No | 2
- Morse code timing correct (from scope display) | Yes/No | 3
- Propagation delay measured | Yes/No | 1

Code Organization (Graded after submission)
- Properly indented code | Yes/No | 1
- Well-commented code | Yes/No | 1
- Provided code to initialize appropriate PORT capabilities | Yes/No | 2
- Wrote a correct `makeOutput` routine | Yes/No | 2
- Buttons inputs read and tested properly | Yes/No | 1
- Functions used for generating dots and dashes | Yes/No | 1
- Delays correct within character | Yes/No | 1
- Delay correct after character | Yes/No | 1

Total | 20
