CSCI 103: Introduction to Programming - Lab 15
Final Prep and HW7
Final Information

Please review the procedure, topics, and practice problems that we will post on the Final information page.

https://bytes.usc.edu/cs103/final-info.html
Here is an extra document outlining topics and providing questions to spark your review. The guide:

- is not comprehensive
- should be used to help inspire questions or find a gap in your understanding
- should guide you towards additional practice
In This Lab

• Try the sample final, any exercises you want to review, and check out the additional final study sheet from the previous slide
• Use the time to work on HW7 (due April 27th)
