CSCI 103: Introduction to Programming
Lab 4

February 3, 2023
Lab Goals

- Apply knowledge of C-Strings to complete basic operations on them
- Provide time to work on HW2 and get help from the TAs
Process

• C-String Review
  • Open Lab 4 on Codio (going through Blackboard)
  • Your TA will walk you through some teaching points about C-Strings on page 1 of the guide
  • The page 2 of the guide will have you complete a few C-String tasks. Try them.
• When you are done or feel ready to move on, you can
  • Work on HW2 for whatever time remains and ask for help from the TAs when needed.
  • Practice debugging on any unfinished parts of lab 3
  • Ask for feedback on HW1 or PR1 approaches
Checkoff (Or lack of)

- This lab is UNGRADED - no checkoff is needed
